

MANNE UDAY KIRAN

udaykiran7615124@gmail.com | +91-9573521583 | GitHub | LinkedIn | LeetCode | HackerRank

EDUCATION

Chaitanya Bharathi Institute of Technology (CBIT), Hyderabad

B.Tech in Computer Science & Engineering

2024 – 2027

CGPA: 8.57/10

Institute of Electronics, Hyderabad

Diploma in Computer Science & Engineering

2021 – 2024

CGPA: 9.62/10

St. Isaac Advent High School, Hyderabad

SSC(Secondary School Certificate)

2020

GPA: 10/10

TECHNICAL SKILLS

Primary Skills: Python, Java, JavaScript, C/C++

Backend Development: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication

Frontend Development: React.js, HTML, CSS, Component Libraries (MUI, Bootstrap)

DevOps & Deployment: Docker, GitHub Actions, Render, Firebase

Databases: MongoDB, MySQL, SQL

Testing: Pytest, Jest

Developer Tools: Git, GitHub, Postman, VS Code, Google Cloud

Soft Skills: Problem-solving, Communication, Leadership, Adaptability, Team Collaboration

ACHIEVEMENTS

- **LeetCode:** 500+ problems solved, active in contests.
- **HackerRank:** Gold in C++ , Silver in SQL,Bronze in Problem Solving.
- Participated in 10+ hackathons, primarily on **Devpost**, developing AI and full-stack software solutions.
- Contributor to open-source and active GitHub developer with multiple full-stack projects.

PROJECTS

Prompt-to-Product — AI Developer Platform

GitHub

- Engineered a full-stack AI assistant using **React (Vite)** and **FastAPI** to convert developer prompts into actionable code and insights.
- Integrated **Groq**, **Firebase Auth**, **StackBlitz**, and **OCR (Tesseract.js)** for multi-modal interaction.
- Implemented **JWT authentication**, multilingual speech input, chat history persistence, dynamic themes, and error-handling.
- Added CI/CD with **GitHub Actions** and deployed a containerized version using **Docker** on Render.

Multi-LLM Consensus System for Reliable AI Responses

GitHub

Tech Stack: Python, FastAPI, React.js, NLP, LLMs, RAG, Databases

- Built a ChatGPT-style platform that combines responses from multiple LLMs into a reliable consensus answer.
- Developed a consensus pipeline with peer evaluation, chairman synthesis, and hallucination detection.
- Created a FastAPI backend and React frontend with RAG, chat history, and model-wise response visualization.

AURA (AI Unified Responsive Assistant)

GitHub

Tech Stack: Python, FastAPI, React.js, MongoDB, JWT, Docker, LLMs, OAuth 2.0

- Built an AI-powered platform for task management, resume analysis, and personalized career guidance.
- Developed the full-stack application using React, FastAPI, MongoDB, and LLMs for intelligent assistance.
- Implemented JWT authentication, Google Calendar OAuth, REST APIs, analytics, and Docker deployment.

AI Image Recognition System Tech Stack: Python, OpenCV, TensorFlow/Keras, NumPy

- Developed an AI-based system to recognize and classify objects from input images.
- Improved prediction accuracy through image preprocessing and feature extraction techniques.
- Trained and integrated machine learning models into a complete image recognition application.

EXPERIENCE

Python Developer Intern — IndusTech Solutions, Hyderabad (Certificate)

Dec 2023 – Jun 2024

- Completed industrial training focused on Python-based application development and AI concepts.
- Worked on an AI Image Recognition project by understanding system design specifications and implementing core functionality.
- Gained hands-on experience with Python programming, debugging, and developing practical software solutions.
- Collaborated with mentors to complete assigned tasks and deliver project components within deadlines.

CERTIFICATIONS

- **Programming in Java — NPTEL OOP, multithreading, exception handling** (Certificate)
- **Programming in Modern C++ — NPTEL STL, templates, memory management** (Certificate)
- **SQL (Basic) — HackerRank Joins, grouping, filtering** (Certificate)
- **MERN Stack Development — TuteDude**
Key Skills: MongoDB, Express.js, React.js, Node.js, JavaScript, REST APIs
